PARTNER SUPPORT FOR HOME SERVICE PROFESSIONALS

I work with homeowners during the pre-move and pre-listing preparation phase — helping them declutter, sort, organize, and create a clear plan before other vendors step in. HOW REFERRAL PARTNERSHIPS WORK

Because I work with homeowners during the early preparation phase of a move or home sale, I often see when additional services are needed.

When that happens, I connect clients with trusted local professionals (you) who can help with the next stage of the process.

Depending on the situation, this may include services such as:

- Cleaning services
- Painting and home repairs
- Moving and hauling
- Estate sale or consignment services
- Donation or junk removal
- Other home services related to preparing a property for sale or transition

Likewise, when you encounter homeowners who feel overwhelmed or unsure where to begin, you can **refer them to me for structured preparation support.**

My role is to prepare the home and help homeowners make decisions so that professionals like yourself can step in and do your work efficiently.
